- npm install -g truffle
- npm install -g ganache-cli
- ganache --version

Run local blockchain

- ganache-cli

- Now add the RPC Listening URL : 127.0.0.1:8545 in metamask with chain ID: 1337.

Now import accounts using from Ganache CLI into metamask using private keys:

- 1st private key is for admin and rest are for voters.

- truffle migrate

- cd client

- npm start
